

# Comprehensive Emergency Operations Plans (EOP)

**In a time of urgency, disorganization and delay can inflict more harm and damage. An Emergency Operations Plan (EOP) provides a framework for preparedness, response, and recovery involving a disaster or emergency. The plan identifies the resources, systems, and procedures that are needed before, during, and immediately after an emergency.**

Tidal Basin's expertise lies in creating comprehensive and effective EOPs that can mitigate the impacts of a crisis. Our highly experienced team is comprised of many former public sector emergency managers who understand how essential this measure is for your preparation and recovery.

We have worked as operational planners at the local, regional, state, and federal levels, providing insight into "how" teams respond and "how" to best write plans to reflect real-world responses, lessons learned, and best practices.

**Preparedness**

**Response**

**Recovery**

**Mitigation**

**We follow a comprehensive approach when providing your customized EOP:**

## Comprehensive Emergency Operations Plans (EOP) Experience

The following is a partial listing of the satisfied organizations, governments, and communities we have helped. We encourage you to contact them if you are considering our services to discover how we helped manage their preparedness. Upon request, we can also provide you with references specifically related to your particular situation.

CLIENT OR ENTITY	DESCRIPTION OF PROJECT
Municipality of Anchorage	Emergency Operation Plans (EOP), Annexes, and Appendices
Butte County, California	Emergency Operation Plans (EOP), Annexes, and Appendices
Del Norte County, California	All-Hazard Emergency Operations Plan (EOP), Volunteer and Donations Management Annex, and Power Outage Annex
Northern Virginia Emergency Response System / Washington Metropolitan Area Transit Authority	NoVA Silver Line Incident Coordination Resource Tool and Training
State of Colorado, Division of Homeland Security and Emergency Management	EOC Staff Surge Support to Colorado Department of Homeland Security and Emergency Management (CODHSEM) State Emergency Operation Center (SEOC) in response to COVID-19 and wildfire incidents
Bay Area Urban Area Security Initiative (BA UASI)	Regional Catastrophic Preparedness Grant Program (RCPGP) and Commodity Points of Distribution Planning (C-POD)
State of Michigan	Pandemic Response & Recovery Planning Updates and Toolkit Development
Orange County Transportation Authority	Emergency Operations Plan (EOP) Annex Disaster Cost Recovery Training
National Academy of Sciences Airport Cooperative Research Program (ACRP)	Synthesis Study regarding Airport Emergency Plans (AEP)
State of Michigan, Emergency Management and Homeland Security Division (EMHSD)	Statewide Energy Assurance, Threat and Hazard Identification and Risk Assessment (THIRA), Stakeholder Preparedness Report (SPR), and strategic planning
Los Angeles Department of Water and Power (LADWP)	Emergency Management Preparation Services, including Water Emergency Command Center (WECC) Activation Plan
The Wave Transit Authority, Mobile, Alabama	System and Security Emergency Preparations Plan
